

GENERAL

Rakennuttajatoimisto HTJ Oy is one of the premier project and construction management consulting companies in Finland.

We are a construction management agency providing protection of our customers' interests, project management, site supervision, and various construction management services.

HTJ serves you with your future construction projects, from investment preparation and planning to guarantee period tasks. Our services cover both building and infrastructure construction tasks, whether it involves a new construction or renovation project.

Our principle is to operate as an independent and self-reliant construction management consulting agency. The company has no ownership or financial ties to planning or contracting organisations.

Est.1999
Number of Staff
53 persons (01/2012)

Our head office is located in Vantaa and regional offices also in Hämeenlinna and Tampere.

We are members of The Finnish Association of Consulting Firms (SKOL), the Finnish Association of Building Owners and Construction Clients (RAKLI) and the Association of Construction Management Companies (RTL), among others. As an employer we are a member of The Federation of Finnish Technology Industries.

Suomen Asiakastieto Oy (www.asiakastieto.fi) has granted HTJ the Suomen Vahvimmat -certificate which is given only to businesses in the best AAA and AA+ -classes, approximately 10% of Finnish companies. The rating is based on Rating Alfa which analyses the financial and background information of the company.

Dun & Bradstreet/Soliditet Finland has granted HTJ the highest class in the Rating classification AAA, i.e. a certificate for a well managed company. The highest AAA classification points out, that we are a trustworthy and safe partner.

YOU DECIDE, WE MANAGE AND SUPERVISE FOR YOU!
